<p><b>Disappearing?</b></p>  <p>Measure 200ml of warm (not boiling!) water and place in a transparent container e.g. a glass. Weigh the glass and water together. Then weigh out 25g of salt and add it to the water in the glass. Stir until the salt disappears from sight. Weigh the glass containing the salty water again. What do you notice? Place a tiny drop on your tongue. Has the salt 'disappeared'?</p> <p><a href="https://www.bbc.co.uk/bitesize/topics/zity4wx/articles/zpbdpbk">https://www.bbc.co.uk/bitesize/topics/zity4wx/articles/zpbdpbk</a></p>	<p>Have you ever wondered 'Why is the sea salty?' Research this question and present your findings in which ever way you choose.</p>  	<p>Watch 'Blue Planet 2' on the BBC iplayer. (Follow the link below). Choose one creature that lives in the sea, research and create a fact file in welsh. Remember to include as many facts as you can and lots of pictures.</p> <p><a href="#">BBC One - Blue Planet II, Series 1, One Ocean</a></p>
